

WIMCO GAN

Double Head Tube Filling & Closing Machine

WIMCO LIMITED

Features

- CE & GMP complied machine
- Auto tube infeed
- Tail free filling
- Inbuilt central lubrication
- Safety interlocks
- Proven high quality hot air sealing system for plastic & laminated tubes
- Easy & fast changeovers
- High level of adaptability for various retro kits for different applications
- A combination sealer for both metal tube folding, laminated & plastic tube sealing
- Multi colour filling
- Profile/Designer cutting & sealing

Technical Specifications

- Maximum designed speed 120 tubes/min
- Filling range -1cc to 250cc (With change of pump inserts)
- Filling accuracy 1% of fill weight
- Tube diameter upto 50mm
- Tube length upto 200mm

Power Consumption

Max. - 8.5 KW
Min. - 1.9 KW

Air Consumption

Max. - 650 LPM @ 6kg/cm²
Min. - 200 LPM @ 6kg/cm²

Chilled Water Consumption

8 LPM @ 8 -10 degree celsius in case of hot air sealing system
